HERE is a delightful summer retreat. This terrace, which is intimately connected with the house, is greatly enhanced by a large shade tree and an effective planting of evergreens, flowering shrubs, and ground-covers. In planning your outdoor living-room, let us give you the benefit of our experience by telling you how to create a quiet, restful atmosphere on your home-grounds. It is not merely a planting of trees, evergreens, and flowering shrubs that makes a garden—it is the proper use and adaptability of these materials that produces a pleasing picture.

LANDSCAPE SERVICE

LET us work with you and help you with your planting problems. In order to produce artistic and lasting landscape effects, careful planning and proper use of plant material is necessary. Landscaping is the main part of our business, and every planting, whether it be large home-grounds or small, is given our personal attention.

Many fine homes and estates in Monmouth County and our prize-winning exhibits at the New York Flower Show every spring, reflect the type of landscape work that is done by our Nursery.

Grouped about these facing pages are views of plantings done by our Nursery, showing the complete line of landscape work we do every season.

We will gladly draw plans and submit estimates to fit your particular needs, whether it be for a complete treatment of the entire grounds, a foundation planting, a special planting, or revamping an old planting. This service is rendered free except where elaborate plans and special trips are necessary, in which case a small fee will be charged, which will be credited to our customer's account when the order is placed.

FOR APPOINTMENTS phone Long Branch 2587 or drop us a card and we will be glad to call on you to make suggestions or offer advice.

VISITORS are always welcome to come to our Nursery to see the best trees, shrubs, evergreens, roses, and perennials suited to this part of the country. New plant introductions are added as fast as their worth can be proved, so that we are building up a collection of plants which enables us to fill almost any order on short notice.

Keep your garden modern with tested novelties from our Nursery.

DELIVERY. Unless otherwise instructed, we will ship all orders to arrive at proper planting-time. Postage pre-paid when cash accompanies order.

TERMS. If you desire to open a charge account, please send bank or trade references with order.

The three views at the bottom of this page show sections of gardens designed and planted by us.

These photographs, taken the first flowering season after the gardens were planted, show how an immediate effect can be obtained with properly planted and arranged material.

PLANNED GARDENS

Here are some intimate glimpses of little gardens. All were planned in an effort to create pleasing pictures and at the same time to make possible for the owners an effective display of colorful flowers.

Evergreens and deciduous shrubs have been used effectively to plant the home-grounds shown here.
A hedge of *Taxus cuspidata* serves most effectively to bound the property

EVERGREENS

The planting of Evergreens about the home is one of the finest investments one can make. They increase in value and beauty each year as they grow into larger and finer specimens. There is nothing to equal the Evergreens for adding warmth, color, and background to the home and grounds.

We are always glad to submit estimates for landscaping on request.

The following prices are for exceptionally fine, bushy, well-shaped trees, dug with a generous amount of soil, and burlapped. You will find that our Evergreens measure well up to each size. Many of these varieties are fine for rockery work.

ABOVE—This picture suggests an interesting treatment of change of level in a garden. Azaleas and rock-plants have been used to soften the wall on either side of the steps. Two large evergreens have been used on the upper level for accent. A change of level should be introduced wherever possible because it gives a feeling of spaciousness.

BELOW—Here in a natural setting a wild garden has been developed. It is significant that all the plants used for color are not necessarily native plants. However, the wise use of herbaceous perennials and flowering shrubs in a setting like this has made possible a beautiful and ever-changing picture which is interesting all season long.

WHITE-FLOWERING DOGWOOD

White-flowering Dogwood is one of our most spectacular native trees. It has become a dominant figure in our local landscape. In addition to the beauty of its bloom in May, it contributes greatly to the autumn landscape with colorful foliage and showy red fruits. **For descriptions and prices, see page 10.**

FLOWERING CHERRY

The beauty of the Washington Japanese Cherries can be brought to your home by planting choice varieties from our collection. **For descriptions and prices, see page 10.**

FLOWERING CRAB

The Flowering Crabs give two periods of unusual beauty in addition to the all-year beauty most of us find in an apple tree. The spring bloom is something we all look forward to, and then the richly colored fruit decorates the trees for a long time before the birds finally dispose of the last little apple.

For descriptions and prices, see page 10

GOLDEN CHAIN TREE

The Golden Chain Tree is known botanically as *Laburnum vulgare*. This attractive spring-flowering tree produces long racemes of flowers not unlike those of the wisteria. It can be used effectively in the background of a shrub planting or as a specimen on the lawn. **For prices, see page 10.**

HARDY PERENNIALS and ROCK-PLANTS

These old-fashioned, hardy flowers have won an important place in the gardens of most flower-lovers because of their varied formation and gorgeous range of color. Year after year they are among the first flowers to greet us in the spring, with renewed vigor after the winter rest, and the last flowers to leave us in the fall.

Considering the countrywide trend toward economy, the perennial garden, in the long run, is the most economical garden to plant because

once planted it eliminates the expense of replanting every year. Many varieties are useful as cut-flowers. They need very little care outside of weeding and cultivation. After the first hard frost, cut the tops down and cover with a good coat of well-rotted manure.

Plants of the following varieties are fine, strong, nursery-grown stock, with the exception of a few that are best transplanted from pots, and will bloom abundantly this year.

Six plants of one variety at dozen rate; 25 at 100 rate

R following the name of a plant indicates that it is suitable for the rock-garden; **R*** that it is large enough to be grown on the edge of the hardy border as well as in the rock-garden

Bedding Plants

We carry a full line of Bedding Plants suitable for cut-flowers, bedding, and window-boxes. We offer these principally for customers within delivery distance for our trucks. It is not advisable to ship annuals.

Annual Plants

All our Annuals are strong, healthy plants potted in individual pots. These potted Annuals produce better results than ordinary plants from flats because the roots are not disturbed when transplanted. Annuals may be planted any time after May 15. We carry a large variety of Annuals and Annual vines including all the latest novelties, many of which will be of great assistance in the perennial border.

Annual price-list sent on request.

Have you ever grown Turner's Delphiniums? They are the finest grown, with immense spikes of large flowers of all shades.

HYBRID TEA OR EVERBLOOMING ROSES

These are the most popular of all Roses because of their ever-blooming habit and variety of color. We have always made a special effort to deliver extra-fine, strong, budded plants direct to the customer from our nursery where they are grown. This insures fresh, vigorous plants that will thrive and bring much joy and satisfaction to the grower. It has been very gratifying to receive many favorable comments regarding the type of Rose plants we have delivered to satisfied customers in the past.

Extra-strong plants, 85 cts. each, \$8.50 per doz., \$60 per 100, except where noted

Alice Harding. Plant Patent No. 202. The finest yellow Rose to date, with large, prize-winning flowers of golden yellow which does not mind the sun. The yellow Rose for exhibitions. A generous bloomer. \$1 each, \$10 per doz.

Amelia Earhart. Plant Patent No. 63. Large, cream-colored buds covered with blushes; double blooms, deep yellow in center lightening to cream with a blush overtone on the outer petals; delightful fragrance. Bushy plants which bloom freely. A real exhibition Rose as every bloom is perfect. \$1.25 each, \$12.50 per doz.

Betty Uprichard. A very fine Rose, unsurpassed in vigor, blooming, color, and resistance to heat or drought. Copper-red buds, opening to flowers of brilliant orange-carmine on outer surface of petals, showing light salmon reflexes.

Briarcliff. Large, pointed buds and double, high-crowned, fragrant blooms of brilliant rose-pink on good stems.

Charles P. Kilham. Large, beautifully shaped blooms of brilliant red-orange, suffused with glowing scarlet; slightly fragrant. Foliage resistant to mildew. Vigorous, bushy, upright.

Countess Vandal. Plant Patent No. 38. Superb, bronze-tinted buds with rose and orange tones, opening to huge, shapely, salmon-pink flowers flushed with gold and flesh tones. A consistent winner of first-prize honors. \$1 each, \$10 per doz.

Crimson Glory. Plant Patent No. 105. Urn-shaped, black buds open to large, deep crimson flowers with a velvety nap. Has the old-time fragrance. Branching plants. \$1.25 each, \$12.50 per doz.

Duchess of Wellington. For many years considered the best yellow Rose. Enormous, tapering buds of golden orange, slowly opening to very large saffron-yellow blooms. Very vigorous and healthy.

Eclipse. Plant Patent No. 172. Long, slender, rich gold buds open to big loose flowers of deep golden yellow. Strong plants blooming freely all season. \$1 each, \$10 per doz.

Edith Nellie Perkins. An exceedingly fine, soft creamy pink flower deeply stained with ruddy copper tones on the backs of the petals. Fragrant, free flowering, and vigorous.

Eduard Schill. Very large, semi-double flowers of a peculiar shade of brick-red flushed with yellow. Plants of extra vigor, with glossy foliage. \$1 each, \$10 per doz.

Eternal Youth. Plant Patent No. 332. Long pink buds opening to high-centered, double flowers of rich pink. Vigorous growth. \$1.25 each, \$12.50 per doz.

Etoile de Hollande. Considered by many the best red Rose. Brilliant red blooms of magnificent size, perfect in half-open state, showing clean, attractive centers when fully open; petals enormous; very fragrant.

Gloaming. Plant Patent No. 137. Glorious long buds open to large, artistically formed flowers of soft satiny pink, flushed with amber. Exquisite. \$1 each, \$10 per doz.

Glowing Sunset. Plant Patent No. 104. Double flowers of loose form in an indescribable blend of orange-yellow and rose-pink; fragrant. \$1 each, \$10 per doz.

Golden Dawn. One of the finest of all garden Roses. Large, double, very fragrant flowers of pale straw-yellow are freely produced on a splendid plant.

Golden Main. Plant Patent No. 254. Medium-sized, double blooms of clean, glistening, dandelion-yellow. Strong growth with attractive shiny foliage. \$1 each, \$10 per doz.

Golden Rapture. A new yellow Rose of upright growth and fine cutting value. The large, double, pure yellow flowers hold their color. \$1 each, \$10 per doz.

Jean Cote. Plant Patent No. 321. Mammoth, double flowers of dark orange, almost brown; rich fruity fragrance. Medium growth with glossy foliage. \$1.25 each, \$12.50 per doz.

Joanna Hill. A glorified Mrs. Aaron Ward. Heavy lemon buds, developing into very double blooms with Indian-yellow centers, surrounded by bold, buff petals.

Kaiserin Auguste Viktoria. Considered best white. An old standard variety with creamy white buds opening to perfectly formed blooms of snowy white.

Lady Alice Stanley. One of the best and most dependable Roses. Massive buds and blooms of very large size, fully double, with outside petals coral-rose, inside pale flesh-pink. Unusually disease-resistant.

Margaret McGredy. Brilliant red petals on hinges of deep gold. Buds upright. Free. One of the thoroughly dependable Roses for every garden. The plants are vigorous and produce their blooms in unending succession all summer and fall.

Max Krause. Deep buttery yellow buds and large, rich yellow flowers.

McGredy's Ivory. Long buds with greenish markings, opening white. Sweet-scented, ivory, nicely formed, double flowers. An excellent Rose.

McGredy's Pink. Plant Patent No. 341. Large, globular flowers of pearly cream and pink with a saffron-yellow base; sweetly scented. Healthy plants with lots of bloom. \$1.25 each, \$12.50 per doz.

McGredy's Pride. Plant Patent No. 339. Orange and salmon-pink flowers flushed and veined saffron-yellow. The blooms are double and last a long time. Typical, strong, healthy McGredy plant. \$1.25 each, \$12.50 per doz.

McGredy's Scarlet. Handsome, loosely formed, crimson Rose with glorious orange-scarlet sheen in the depths of its velvety petals. Plant unusually strong.

McGredy's Sunset. Plant Patent No. 317. Chrome-yellow, flushed scarlet inside and clear buttercup-yellow outside, is the color of this remarkable Rose which is pleasingly fragrant. Bushy plants of average height. \$1.25 each, \$12.50 per doz.

McGredy's Triumph. Plant Patent No. 190. Geranium-red, flushed orange with deep orange at base, is the color of the mammoth blooms which must be enjoyed on the plant as they wilt quickly when cut. \$1.25 each, \$12.50 per doz.

McGredy's Yellow. Long-pointed buds of deep yellow open to perfectly formed, fragrant flowers of bright buttercup-yellow. Upright, healthy plants. \$1.50 each, \$15 per doz.

Miss America. Plant Patent No. 264. Large, very double blooms of perfect form are produced in endless succession all during the growing season, on bushy plants of average height. The color is flesh with a salmon and gold suffusion. Fragrant.

Miss Rowena Thom. A striking novelty with gigantic blooms of brilliant satiny pink, shaded with orange-flame at center. Strong grower.

Mme. Jean Gaujard. Plant Patent No. 338. A two-toned Rose of carmine-buff outside and yellow-buff inside, changing to soft buff. \$1.25 each, \$12.50 per doz.

Mme. Joseph Perraud. A superb Rose of a "different" coloring—golden buff with a pinkish tint toward the edges of the petals. \$1 each, \$10 per doz.

Mrs. Erskine Pembroke Thom. One of the finest yellow Roses, with long buds opening into perfectly shaped flowers of rich lemon-yellow. Very vigorous and disease-resistant.

Mrs. Henry Morse. Flowers are bright pink, with silvery shadings, and are incessantly produced by low, branching bushes. Large buds and flowers.

Mrs. Pierre S. du Pont. Well-shaped golden yellow flowers and bushy, compact plants. Delightful spicy fragrance. This is the most generous-blooming yellow Rose we have today.

Mrs. W. E. Nickerson. Long, slender buds and deep, high-centered flowers with large petals of soft silvery pink, deeply shaded with old-gold and salmon.

Oswald Sieper. Large exhibition-quality flowers of creamy white. Average plants.

Pink Dawn. Lovely buds of deep rose open to splendidly formed flowers of a clean shade of pink tinted with orange at the base. Sweet fragrance. \$1 each, \$10 per doz.

President Herbert Hoover. An outstanding novelty of a real new color-combination—maroon, orange, and gold, rioting in the most contrasting fashion. Long-pointed buds, rigid stems, and good grower.

Radiance. The most reliable and most planted of all Roses. It has no equal for vigor and foliage. Brilliant rose-pink bloom of excellent globular shape and fragrance.

Radiant Beauty. Plant Patent No. 97. A sport of Francis Scott Key with less petals, so that it opens perfectly. Large red blooms of perfect imbricated form. \$1 each, \$10 per doz.

Red Radiance. Bright rosy red form of Radiance, with same qualities.

Rex Anderson. Plant Patent No. 335. Exhibition blooms of cream, aging pure white. Vigorous plants which bloom freely. A beautiful Rose. \$1.25 each, \$12.50 per doz.

Richard E. West. Perfectly formed, high-centered flowers of clear cadmium-yellow, borne singly on long stems; intensely fragrant.

R. M. S. Queen Mary. Plant Patent No. 249. Splendid bushy plants branching freely, with each branch ending in a bloom. The flowers are a blend of salmon, pink, and orange. A beautiful bloom with delicate fragrance. \$1.25 each, \$12.50 per doz.

Rome Glory. Plant Patent No. 304. A strong-growing plant comparing with some of the Hybrid Perpetuals. Splendid flowers of luminous cerise-red; delightful fragrance. Extra winter hardiness. \$1.25 each, \$12.50 per doz.

Roslyn. One of the newer Roses, with nicely formed flowers of deep golden yellow, very double, borne singly on long stems. Vigorous, compact growth.

Signora. Plant Patent No. 201. Long, burnt-orange buds open to double flowers of orange and pink. Unusually tall plants, always in bloom, and the flowers are excellent cut-flowers. \$1 each, \$10 per doz.

Souv. de Mme. C. Chambard. Enormous, perfectly shaped flowers of striking salmon-pink with golden suffusion.

Sunkist. Rich brownish orange form of the well-liked Joanna Hill. Splendid for cutting.

Talisman. The most astounding Rose novelty produced in years. Its brilliant yellow and orange-red buds open to large, fragrant blooms of glowing golden yellow, stained with copper-red and orange-rose on inside of the petals. Extremely vigorous and healthy grower.

Thomas A. Edison. Vigorous bushes with well-shaped silvery pink flowers especially good in midsummer.

Hardy Climbing Roses

75 cts. each, \$7.50 per doz., \$50 per 100, unless noted

American Beauty. Double, brilliant carmine flowers of especially fine form and rich perfume, borne in clusters.

Blaze. Plant Patent No. 10. Remarkable new everblooming form of Paul's Scarlet Climber with clusters of blazing red flowers all summer. Suitable for pillars or big shrub use. \$1 each.

Chaplin's Pink Climber. A new, beautiful, bright clear pink Climber that is extremely free flowering, covering itself completely with sheets of bloom.

Doublons. Plant Patent No. 152. A yellow climbing Rose that is really hardy. Large, double buff-yellow flowers are produced in clusters over a long period. The Rose you are waiting for. \$1 each.

Dr. W. Van Fleet. Large flowers of exquisite pale pink on fine, long stems. Extremely vigorous and glossy foliage.

Emily Gray. A beautiful yellow Climber with golden buds and blooms that do not fade. Very attractive, glossy foliage.

HARDY CLIMBING ROSES, continued

Golden Climber (Mrs. Arthur Curtiss James). Plant Patent No. 28. Vigorous habit. Flowers large, unfading golden yellow. Best hardy yellow-flowering climbing Rose. \$1 each.

Jacotte. Sensational Rose with holly-like foliage and large, semi-double flowers of orange-yellow, tinted copper-red, borne in clusters.

Mary Wallace. Outstanding large-flowered pink Climber. It is a rapid grower, with very brilliant pink, long-stemmed flowers good for cutting.

New Dawn. Plant Patent No. 1. A marvelous new introduction, and the only Hardy Climber as yet that blooms all summer. It resembles the old Dr. W. Van Fleet in every other respect. \$1.50 each.

Papa Gouchault. Strong-growing Rambler with clusters of small, double scarlet-crimson flowers.

Paul Noel. Vigorous Climber with clusters of large, double salmon-pink flowers.

Paul's Scarlet Climber. The most popular red-flowering Climber of the day. Flowers large, well shaped, vivid scarlet-red.

Silver Moon. The favorite white Climber. Flowers semi-double, very large, with brilliant yellow stamens. Perfect foliage.

Everblooming Shrub Rose

Skyrocket. Brilliant red blooms. Of sturdy, upright habit, desirable to plant with other flowering shrubs. \$1 each, \$10 per doz.

Polyantha or Baby Rambler Roses

75 cts. each, \$7.50 per doz., \$50 per 100

This type ordinarily is dwarfed and bushy, seldom growing more than 2 feet. It is very hardy, extremely easy to grow, and flowers continuously all summer.

Gloria Mundi. (New.) Large clusters of striking reddish orange buds and blooms of most amazing color. Compact bushes.

Ideal. A fine dark red variety that produces small flowers in large clusters.

Miss Edith Cavell. Semi-double flowers of brilliant scarlet-red, shaded darker, produced in large clusters.

Mrs. W. H. Cutbush. Soft pink flowers borne in heavy clusters.

Orleans. The most popular light red sort for many years. Fine bushy plants crowded with clusters of flowers all summer.

Triomphe Orleanais. A profuse-blooming light crimson variety, a shade darker than Orleans Rose. One of the finest.

The Queen of Flowers looks and does best in a garden by itself.

Let our Landscape Service design and plant a real Rose-Garden for you.

TRI-OGEN
